**YAMATO CAD SIGNS OUTSOURCING ENGINEERING AGREEMENT WITH
COMMERCIAL PLUMBING INC. IN HONOLULU, HAWAII.**

Matsusho Corporation (headquartered in Yamato, Kanagawa, Japan; Makoto Matsuki, Managing Director), which operates YAMATO CAD, a drafting outsourcing service specializing in plant engineering, announced that it held a signing ceremony on Friday, September 23, 2022, for an outsourcing engineering agreement with Commercial Plumbing Inc. (headquartered in Honolulu, Hawaii, U.S.A.; Randy Hiraki, President), a major local plumbing company in Honolulu, Hawaii, U.S.A.

**■Background of Engineering Agreement**

President Hiraki of Commercial Plumbing Inc. needed a solid partner who could provide highly accurate drawings and engineering support as the construction boom of high-rise condominiums continues in Honolulu in recent years.

On the other hand, Matsusho Corporation was searching for a foothold for expanding its business in the United States. The needs of both

companies matched and led to the signing of this agreement.

■About Matsusho Corporation

Matsusho Corporation, established in September 2018, is part of the Matsusho Group, consisting of Matsusho Kouki Inc., established in 1970; Matsusho Vietnam Co., Ltd., established in 2014; and other affiliated companies. The group operates factories and business offices in Kanagawa, Osaka, Okayama, and Ho Chi Minh, Vietnam, providing services for the plant engineering and construction industries. The group's total sales reached 2.7 billion yen in fiscal 2021. The group actively conducts promotional activities in Japan and abroad.

COMMERCIAL PLUMBING INC. IN HONOLULU, HAWAII.****■About YAMATO CAD**

Managing Director Matsuki of YAMATO CAD remains confident and explains, “Small and medium-sized businesses with limited management resources like us can secure a competitive advantage with selection and concentration-based market expansion by focusing investments on JAPAN brand-centered services.” Comments like these are backed by a technically accomplished specialist group.

The group’s 40+ design engineers (as of October 1, 2022) can flexibly handle various 3D CAD software. In addition to BIM software such as REVIT and Rebro for drawings, YAMATO CAD’s expertise in T-fas, AUTOCAD, EYECAD, iCAD, Solidworks, Iron CAD, etc., is one of its greatest strengths.

■Future Prospects

Matsusho Corporation will incorporate YAMATO CAD in Vietnam in the spring of 2023, and will continue to actively expand the YAMATO CAD brand both in Japan and abroad.
